ORDER NO.

2008-469**SUBJECT:**

DOCKET NO. 2005-191-E - Generic Proceeding to Explore a Formal Request for Proposal for Utilities That are Considering Alternatives for Adding Generating Capacity - Discuss with the Commission South Carolina Electric and Gas Company's (SCE&G) Request for the Issuance of an Order Excepting SCE&G from Certain Requirements Set Forth in Commission Order No. 2007-626.

COMMISSION ACTION:

Grant the request of South Carolina Electric and Gas Company for exception to certain requirements set forth in Commission Order 2007-626. The reasons given by both SCE&G and the ORS persuade me that replacement of the four aging gas turbines used to provide peak power of 38 megawatts (MW) with two relatively new 17 MW gas turbines is a beneficial, cost effective and fuel-efficient proposal that is consistent with the considerations that led us to issue the RFP order. We will continue to consider such requests on a case by case basis pending issuance of the Commission's final RFP requirements.
